

## Staff Evaluation

Please help us to make Youth Serve the best that we can make it. Provide us with honest feedback concerning Youth Serve and the benefits of the program.

What are some things you felt went well this year?

How could the time spent at the work projects be improved?

Were the students well-assigned to the jobs at the work sites?

What are some suggestions you would give to make the family group time better?

How would you improve the worship times (mornings and evenings)?

What did you think about the quiet time journal for the students? Were the students making practical use of that time? What suggestions do you have for improving this part of the program?
